

Freda Mamkiror Omaswa(FREMO) Health and Community Institute

Background.

FREMO has been launched to start academic programs during 2024 to respond to the growing need for well-trained health professionals in Uganda and globally. It will be unique in its approach to health Professionals' education and training as it will employ the latest global approaches to competency-based training Uganda.

Location

The institute is located in Ngora Town Council on Serere road.

Ownership

The institute is registered as a non-profit company by the Omaswa family in memory of their late daughter Freda, a highly trained medical doctor with a vision and passion for global public health.

Institute's Motto

"Health for All by All."

Institute's Vision

To be a center of excellence in the education and training compassionate, skilled and socially accountable health professionals.

Mission Statement

To train generations of competent, ethical and socially accountable health professionals who are change agents in their communities.
